

# HEALTH INSURANCE 50% LESS

## FACT SHEET

**M**edical bills are the cause of 50% of all bankruptcies in America. Most people who buy health insurance don't know what they're buying and most agents, who sell health insurance, don't know what they're selling, according to W. Adam Clatsoff, president of Adcahb Medical Coverages, Inc.

The cost of employee health insurance is one of the largest expenditures a small business person faces. By purchasing health insurance properly, it is possible to save thousands of dollars.

Clatsoff has written a new book entitled *Health Insurance 50% Less* where he discusses the problems facing the health insurance crisis in this country and explains how any company can pay 50% less premium on their health insurance policy and receive 100% better coverage.

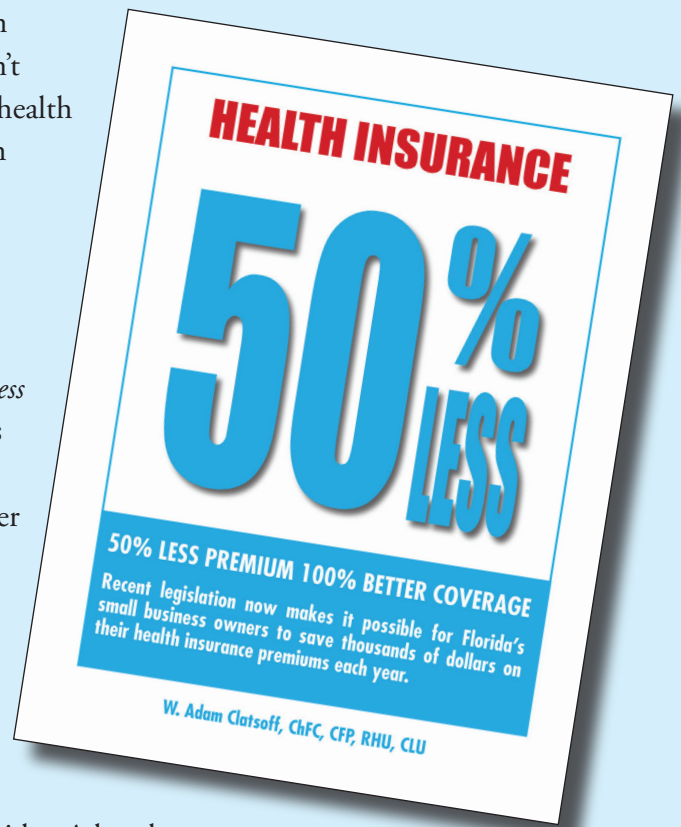

**Title: HEALTH INSURANCE 50% LESS**

**Author:** W. Adam Clatsoff, ChFC, CFP, PHU, CLU

W. Adam Clatsoff is a well-known insurance expert in South Florida. Adam has lectured widely on insurance topics nationally and has been the recipient of numerous industry awards.
